PRACTICAL-2

Name: Valaboju Akshitha
Roll no: 2520080003
Section: 12

STEPS:

STEP 1:Log in to the AWS Management Console.

STEP 2: Search for EC2 and open the EC2

Dashboard.

Click Launch Instance.

STEP 3:Enter the instance name

STEP 4: Choose an instance type (e.g., t2.micro).

STEP 5:Create a key pair (RSA, .pem) and

download it.

STEP 6: Configure network settings and enable SSH (Port 22).

STEP 7: Configure storage using the default settings.

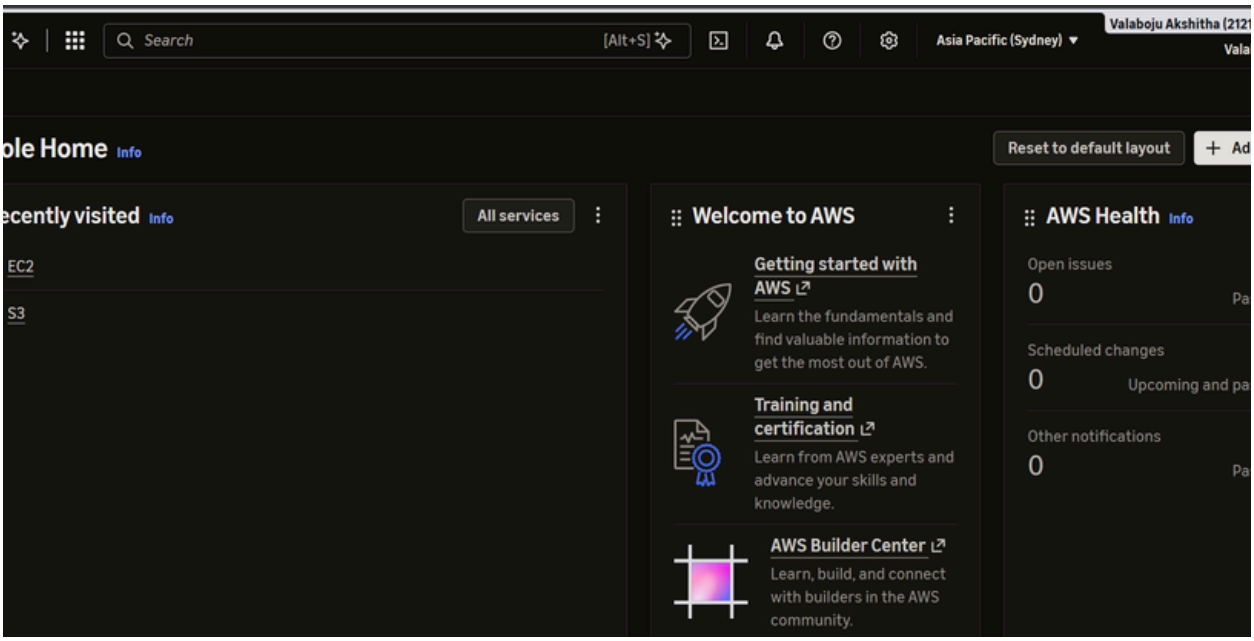

STEP 8: Review the configuration and click Launch Instance.

STEP 9: Go to Instances and verify that the instance state is

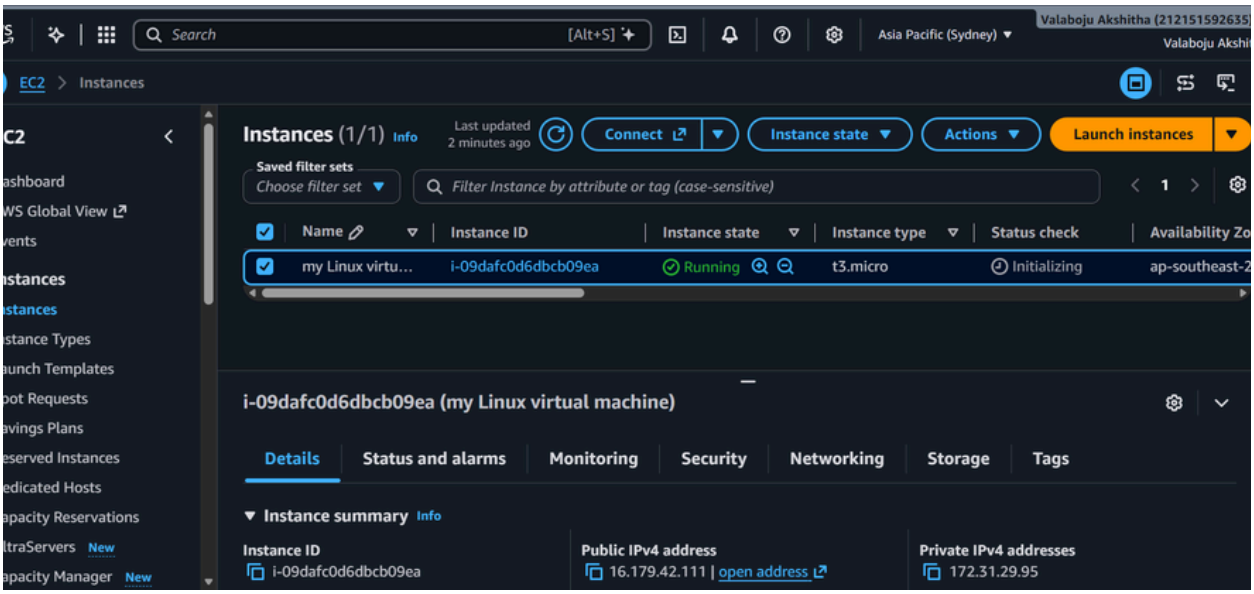

Running.

STEP 10: Select the instance and click Connect.

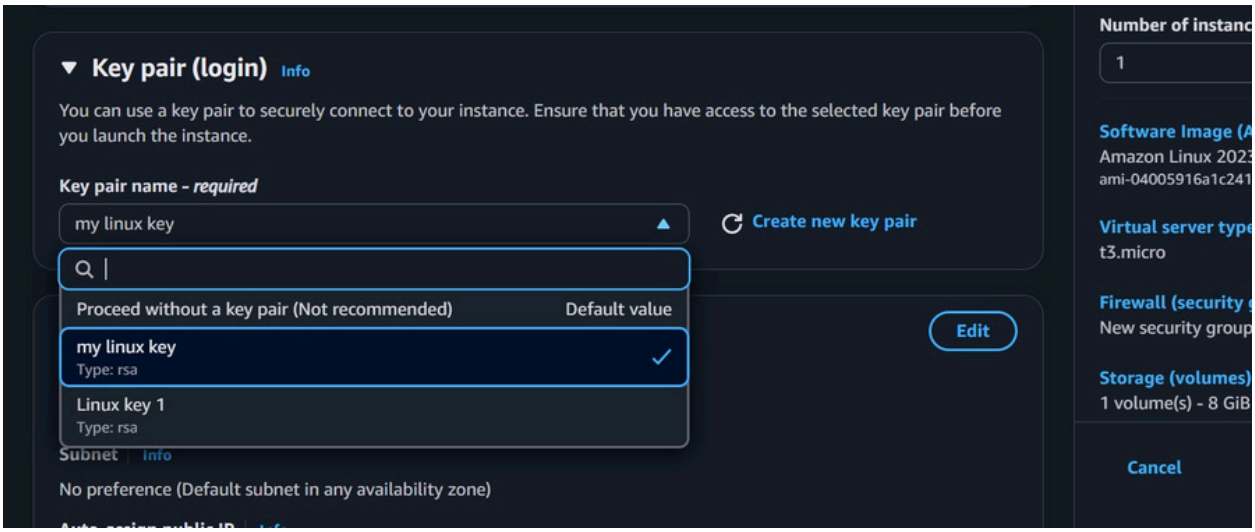

STEP 11: Open the terminal and execute Linux commands.
